FRIDAY, SEPTEMBER 28, 1888.

From the Daily of Tuesday.

THE CITY TRUSTEES.

The Board Gets Down to Business and Does Some Work.

The board of city trustees met in regular session last evening with Trustees Clark, Bridges, Bonds, Peeler and City Attorney Morrison present.

The minutes of the previous meeting were read and approved.

A communication was received from L. W. Storer, superintendent of the Postal telegraph company, asking that the company be allowed to erect poles and run telegraph lines in this city. Mr. Storer was informed that if the company would present a petition for a franchise in conformity with the city ordinance, such petition for franchise would probably be granted.

A communication was read from W. G. Turner, agent for the Albrecht manufacturing company at Los Angeles, stating that the company had not received the bonds in payment from the Albrecht engine and asking if they had been sent.

Mr. Turner's bond, amounting to \$1,000, was turned over to him by the city assessor, and he has since paid the amount.

A communication was read from John F. Murray, a resident of this city, stating that the city assessor had assessed him on certain property for more than it was worth. He asked that the board grant him a rebate on the amount in excess.

The motion the city assessor was instructed to correct the assessment.

A petition for a license was received from T. L. Burdick, and under the rule was laid over for one week.

H. B. Cummings, chief of the Fresno fire department, reported that he had tested 600 feet of the recently purchased hose, 270 pounds to Presbyterians, and found it satisfactory. Also that the company had now in their possession 200 feet of good hose. The report was filed.

J. C. Snepford, city engineer, reported that he had examined and estimated the cost of excavating and widening the ditch from the northwest corner of Temperance colony to the southwest corner of the town ranch. He found the land in some places very narrow, not over ten feet in width, and in some places there was a great deal of brush. He suggested that the city should be allowed to widen the bottom, with a slope of two feet to the foot on the levee. The cost was estimated at \$350. The report was received and placed on file.

Dr. Peeler referred the following as an agreement between the city and the canal company relative to enlarging and repairing the hill canal:

"First—The City of Fresno agrees to enlarge and repair the hill canal from the southeast corner of the hill canal to the northwest corner of Temperance colony, in accordance with specifications contained in the report of City Engineer Shepard made to this board this day."

"Second—Said canal will be enlarged to carry water to the fall line when necessary to irrigate the hill."

"Third—In consideration of said work being done to the hill canal, the canal company will furnish a bond to the city in the sum of \$250, conditional upon said canal company maintaining the canal at the specified dimensions for the term of five years from and after the completion and acceptance of said work."

The lack of fruit exhibits at the fair is simply astounding. Fresno county is one of the best fruit growing counties in the state and yet the exhibit would lead one to suppose that preachers in this county were few in number and poor in breeding.

The following bids were received for covering the engine house with corrugated iron. Barret, Hanks & Co., \$140; J. F. Weaver, \$125; A. D. Dunbar, \$137. On motion of Tunbs the bid of J. F. Weaver was accepted.

Fred Stevens was appointed a police man on the police force, and I. L. Johnson, a State Troop special policeman for one week.

I. L. Johnson presented plans showing that part of the city from Ingoy to Stanislaus streets and from K to E streets, through which the sewers are to be constructed.

The following bids were received for covering the engine house with corrugated iron. Barret, Hanks & Co., \$140; J. F. Weaver, \$125; A. D. Dunbar, \$137. On motion of Tunbs the bid of J. F. Weaver was accepted.

The Fresno Republican

FRIDAY AFTERNOON

Short & Shanklin.

Mr. Austin, in Advance, \$1.50
extra editorial rates

FRIDAY, SEPTEMBER 28, 1888.

John P. Irish is stopping at The Hughes.

Colonel Eugene Lake of Stockton is in the city.

J. E. White and wife of Sutter were in the city yesterday.

Mrs. J. H. Northern returned last night from a visit to the coast.

Tom Chambers and Fred Wilson of Glendale are visiting the fair.

In Glendale's Driving Club was well represented at the fair grounds yesterday.

Tax payer on the Southern Pacific road gladdened the hearts of the boys yesterday.

Governor Waterman will be at the fair grounds today. Probably about 10 o'clock a.m.

Miss Lizzie Butler, daughter of Sheriff Butler of Colfax, California, was in the city yesterday.

Miss Alice and Sue Daley returned last night from a summer vacation spent in San Francisco.

The fine counters for Kinner, Goldstein & Co.'s new stores are now being made by Contractor Lucas.

Fred Fischer, general merchant dealer at O'Neill's post office, was in town yesterday taking in the fair.

S. N. Griffith on yesterday purchased Judge Sayle's set of steel deer carvings, paying therefor \$10.00.

W. B. Lyon, grand secretary of the Odd Fellows in California, is in the city the guest of J. F. Ferguson.

We are indirectly informed that Dr. Rowell will arrive in Fresno the latter part of this week or the first of next.

The fair will not close until Saturday evening. The baby show and the ladies' horse-riding will be features of the day.

Quite a number of ladies and gentlemen visited Governor Waterman and family at their rooms at The Hughes last night.

Part T. Allard and children returned yesterday from the coast, where the latter have been for some time. Mrs. Allard is now visiting in the east.

A daily mail runs from this city to Boston, Cleveland and Washington, colony, which is a great convenience to the enterprising people of that colony.

Mrs. J. S. Adams, accompanied by her daughter, arrived from Ontario, Canada, a day or two since, to join her husband, who has been here for some time past.

E. E. Carey, representing the San Francisco Bulletin, is in the city, and will write a letter to the Bulletin descriptive of Fresno city and county. He will also report the fair.

Mr. George Palmer, of the San Francisco glass works, was in the city, and will write a letter to the Bulletin descriptive of Fresno city and county. He will also report the fair.

Plans for a new Congregational parsonage have been adopted, and the work of construction will soon begin. It will be a two-story residence of modern style and will cost about \$40,000.

The reason there is no restaurant in the club house at the fair grounds is that the man who had arranged to take it back out, and at a time when it was too late to make other arrangements.

An extra feature has been introduced for tomorrow at the fair grounds. Two men will run five miles one straight heat, for a purse of \$200. The stakes have been put in the hands of F. G. Berry.

S. N. Griffith went to Fresno last night to look after an important real estate deal. His will report early next week, accompanied by Mrs. Griffith, who has been on the coast for some time.

Lawyer Grady says he will run any outfit of his weight fifty yards for \$50. N. I. Baldwin says he will accept the terms, and the race will probably occur today at the fair grounds. Grady weighed 180 pounds.

It is a little surprising that an accident has not happened at the entrance of the fair grounds, as buggies go so closely together that if one should be suddenly stopped some would probably be tele-

scooped up.

The prizes for the baby show will be awarded on Saturday at 10 o'clock a.m.

The entries are yet open, and visitors do not have to be present every day unless they choose, but must be there on Saturday evening.

Ex-Governor Loomis of Stockton, who is now in this city, made the remark at the fair grounds yesterday that he had traveled nearly all over the United States this summer, and that Fresno is the liveliest town he had seen anywhere.

There was a row and a rumpus at The Hughes last night while polo was being sold. W. J. Dickey objected to an insolent bear's talk, and for a moment it looked like there would be a fight.

The negro was not only to blame, but no business to be where he was.

Lawyer Grady says he will run any outfit of his weight fifty yards for \$50. N. I. Baldwin says he will accept the terms, and the race will probably occur today at the fair grounds. Grady weighed 180 pounds.

In the second heat Congressmen came in first, Daybreak second, and Viking third. Time, 2:21½.

The horses came in the same order on the third heat. Time, 2:31.

TO THE FAIR OF THIS DAY.

THE SECOND DAY

OF THE FRESNO FAIR PROVES A BRILLIANT SUCCESS.

ATTENDANCE LARGE; GOOD SPORT.

TO-DAY WILL BE THE BEST DAY OF THE WEEK—THE ENTRÉES AND THE PRESENT.

EARLY YESTERDAY MORNING THE AVENUE LEADING FROM THIS CITY TO THE FAIR GROUNDS WAS CROWDED WITH VEHICLES OF EVERY DESCRIPTION, AND AS SOON AS THE STREET WAS BEGAN ROLLING THEY WERE CROWDED WITH PEOPLE GOING TO THE FAIR. THE DAY WAS A LITTLE WARM, BUT IT SEEMED TO BE COOLER AT THE FAIR GROUNDS THAN IN THE CITY, AND EVERY ONE WHO WENT, WHETHER EARLY OR LATE, SEEMED PLEASED WITH WHAT THEY SAW, AND REMAINED UNTIL THE LAST HOUR OF THE FAIR. BY ONE O'CLOCK THERE WERE PROBABLY BETWEEN 2,000 AND 3,000 PEOPLE ON THE GROUNDS, AND THE CROWDS STEADILY INCREASED DURING THE AFTERNOON, UNTIL, AT 7:00 P.M., 7,000 SPECTATORS WERE ON THE GROUNDS, IN THE CLUB HOUSES, GRAND STAND,

THE MORNING WAS SPENT BY THE VISITORS IN LOOKING AT THE STOCKS ON EXHIBITION AND AT THE VARIOUS EXHIBITS IN THE PAVILION.

IN THE AFTERNOON THE GRAND STAND, THE TOWER, THE CLUB HOUSE AND THE BALCONY OF THE CLUB HOUSE WERE CROWDED WITH SPECTATORS. THE POOL BOX WAS HIGHLY PATRONIZED, AND THE TENNIS COURT WAS THE SCENE OF GREAT ACTIVITY.

AT 4:00 P.M. THE HORSE RACES ON THE SPECIAL SPOTIFY BEING THE DIAMOND CROWN HORSES.

GEORGE W. THOMAS OF FRESNO HAS A FINE EXHIBIT OF RICHLY IMPLENTED TURNIPS, AND BUCKWHEAT, ALSO TURNIPS, CARROTS, ONION CHAINS, MUSTARD, CABBAGE, LETTUCE, ETC., DARK SHAVINGS, ETC., ETC.

FRESNO FRUITS.

An Exhibit that Commands Great Attention.

WONDERLAND OF THE WORLD.

surprising the Easterners — The pamphlet Read Eagerly — Our Representatives at Work.

We learn from the Columbus Dispatch, a copy of which has been loaned to us by a friend, and from letters written by those in attendance, that the Fresno exhibit at Columbus is attracting more attention than any other exhibit there. The pamphlets are eagerly read by the crowd that continually surround the exhibit of California products. There are thousands of people in the east who expect to make their money in California, and they naturally welcome any news relative to the state. The Fresno exhibit is under the charge of Messrs. F. M. Chittenden and C. A. Fuller. Mr. Chittenden is especially well acquainted with Fresno county and her resources, and never misses an opportunity to forward her interest. We except from the 16-patch as follows:

Through the courtesy of a friend we introduce to you G. C. Fuller, who represents Fresno County in the Agricultural exhibit, and through his kindness the many beautiful features of the entire exhibit were most interestingly explained. Colored Fuller is a G. A. R. man of the Second regiment, Rhode Island volunteers, Company C, and is naturally proud of the exhibit of the state. He is one of the executive committee of the Fresno County Board of Trade, and as the service men which

make up the majority of the Golden State, notwithstanding the great county of Fresno for its wonderful fruits, abundant all varieties of fruits are in this part of the state, their wine and raisins are surprisingly great. This is the home of the widely-known Barton wine company, the products of which are standard everywhere. Their wine exhibit is of course beautiful to be held and fully up to their high standard. The raisin industry in this country is something marvelous.

Over half a million boxes of the most delicious raisins imaginable are put up in this country above every year. In order to form some conception of the size of this great industry one has only to realize it is larger in area than the state of Massachusetts. It is not a new country, in the common acceptance of the term, but has been irrigated and tried until the lands of the husbandman have been crowned with wonderful success. Farms in abundance can be obtained in this locality, which are said to be parades.

Raisins are a specialty in California, and Fresno county is said to turn out one-half million twenty-pound boxes a year. The Bartons have also a fine display of wines, cheese, port, mace, Burger, etc., and others being placed in an attractive pyramid. The Barton vineyards are sold about a year and a half ago to an English syndicate for about a million dollars. The output is about two million gallons annually.

The exhibits under this head are enough to make one's mouth water. From Fresno county are seen sun-dried fruits, fresh and inviting, and of great perfection. Peaches, apricots, plums, figs, etc., are shown that caused exclamations of delight from all. These fruits are usually split open and dried in the sun on boards, the drying taking five or six days. The raising of figs is a new industry, and promises to be one of the biggest, as the figs are fully equal to the celebrated Smyrna figs. When they commence picking raisins and fruit in this country over five acre lots a day are sent out. Green fruits are also shown in abundance.

The Fresno county board of trade located at Fresno City, gave veritable fitting showing the profitable result of fruit culture and farming in this portion of the state. To hear how the simple people makes one think that this is the veritable promised land which was so gloriously pictured to the children of Israel in days of old. This board of trade is represented here by Mr. C. A. Fuller and Mrs. F. M. Chittenden, who are thoroughly alive to the magnificence of the country they had from, and give out facts, figures and information relative thereto in a manner fully satisfying to every inquirer. California could not have more worthy representatives than these two gentlemen, who are representing the Fresno board of trade, especially, in a handsome style. The majority of visitors coming for have been persons from far and it is the desire of those in charge that the people of California should have full opportunity to view the rich showing from California before being taken away.

Nectarines, a peculiar fruit only found in California, and which might be called a cross between a peach and an apricot, is one of the novelties. They are used both for drying and eating and are very palatable. A feature that attracts much attention is the celebrated redwood and cypress trees around the big slate and bark at the base of the day. These trees grow to an enormous height, some being 200 and even 300 feet high. A slab is about sixteen feet long and four inches wide taken from one of these giants. The wood takes a fine polish, is much used for house trimming and veneering, and presents a handsome appearance. The bark is very peculiar, being of a soft velvety style and a piece is shown thirty inches thick, taken from a tree thirty-five feet in diameter. These trees are the wonder of the world and never fail to attract much attention.

Another curiosity is a slab from a sugar pine in Fresno county. These trees also grow to a great height — too high for the sawyers to climb, as a teststeron rod. The slab is four feet wide, taken from one of these great trees.

Stocks of corn from Fresno county, white and yellow, 200 feet high, grown in fifteen weeks, are shown.

The Journal says: "Of all the sections making an exhibit none has attracted more attention than that of Fresno county. This county alone covers a region larger than the states of Connecticut or Massachusetts, and its resources seem wonderful. The raisin display is grand, and it is said that this alone produced last season 300,000 bushels of twenty pounds each. Sun-dried fruits of all kinds are delicious in appearance, and make a tempting good. The wine too make a tempting show, and they came from the celebrated Barton vineyards, which sold eighteen months ago to an English syndicate for \$1,000,000."

Large quantities of green fruit were given away yesterday to visitors, having been sent on for that purpose. The visitors took their place in line and passed along the stand, when attendants handed out samples of grapes, peaches, etc.

THE SOLDIER BOYS.

They have a Grand Good Time in Camp at Las Palmas.

On Saturday night the members of Company C, N. G. C., mounted the vehicles provided by Mr. James Beever, and started for the beautiful home of Major Ben Woodworth, Las Palmas, which lays about five miles east of the city. The soldier boys went to camp over Saturday night and hold their annual target shooting, enjoy a bonfire and have a dress parade on Sunday. They were entertained and royally entertained at that by Major Woodworth, and are looking forward to a great time.

It was to an o'clock Saturday night when the vehicles which conveyed the boys from town stopped at Las Palmas. It was a beautiful night, far Las Palmas, and the boys were gathered around a fire, and the palm bushes were burning brightly. The picture they made was a picture that would be remembered, stretched in two long rows, private white tents, 10x12 feet, were arranged in regular military style. At the entrance to the camp the famous canyon, Old Town, was passed, and as the company approached the town hall with a salute of welcome, which was answered by a rousing cheer from the men. Every man had his blanket and there was plenty of clean straw provided, so that there would be beds to bed. From 10 to 12 o'clock until 12 midnight, the boys spent the time in arranging bedding, fixing the barrel of ice cold beer in the tap and playing all manner of tricks on each other, but when midnight struck, the drum taps, signifying all that guard were posted to be relieved, were two hours, and soon silence reigned supreme. Every one in a while some wake-a-way fellow would attempt to sneak out of his tent, but the guard would chase him back again, and finally even the most sleepless soldier in the company was walking the echoes with his melodeon.

At 6 o'clock Sunday morning old Tom rained on the sunny side, and soon everybody in camp was busily engaged, this time making the breakfast meal. The time until the breakfast meal was a half hour, and the officer with the men "fell in" and the men in which they drowsed, the delicious breakfast provided, proved they had brought their appetites with them as well as their blankets. Coffee, bread, bacon, eggs, potatoes and fruit was the menu, and more than one "light-eater" astounded himself with the amount of provender he had stored away in his belt. From breakfast time until 10 o'clock the soldiers lounged around, playing cards, smoking and having good time generally. At the latter hour the annual "target show" commenced, the men being sent out in detachments had fired ten shots each, they returned to camp and a new boy took his place at the target. The following is the score made:

Wright, S. S., major	27
Muller, M. W., captain	41
Chisholm, T., lieutenant	41
Moore, O. J., lieutenant regimental staff	29
Hart, T. G., sergeant	10
Snow, J. R., sergeant	21
Gillith, W. G., sergeant	21
Taylor, A. P., corporal	21
Stayton, J. W., corporal	21
Preston, G. B., corporal	21
Shaw, H. W., private	21
Devlin, J. A., private	21
Eastbrook, C. O., private	21
Ferraro, T. W., private	21
Hoover, J., private	21
Heckling, Frank, private	21
Hart, H. J., private	21
Hinkins, Ed., private	21
Millard, W. J., private	21
Morgan, J. D., private	21
Murphy, K. R., private	21
Priestley, A. R., private	21
Paeeler, J. L., private	21
Popovich, L., private	21
Pozl, F. D., private	21
Prusso, L. E., private	21
Ranney, E. D., private	21
Snow, H. L., private	21
Swanson, E. F., private	21
Spencer, W. H., private	21
Walker, J. E., private	21
Smith, U., musician	21

At the time the target practice commenced, the men of the military band, being a portion of Company C, arrived and gave an open air concert for the remainder of the day. Three o'clock was the hour set for the barbecue. Two calves, one weighing 150 pounds and one 140 pounds, stuffed with chickens, were roasted whole by two men, who in their hand roasting whole oxen on an average of once a month the year round. They say they knew the soldiers would be the mildest of guests. For the meat was delicious. In addition to the calves roasted for stuffing, there was baked potatoes, other vegetables, fruit, coffee, bacon, punch and beer. It was a grand meal, and Major Woodworth's hospitality and generosity was upon everyone's tongue. Not only was there enough for all the soldiers and a hundred or so civilians, who were on the grounds as spectators, but after the soldiers and guests had fed, the drivers from the neighboring places gathered and found an abundance of everything.

The exhibits under this head are enough to make one's mouth water. From Fresno county are seen sun-dried fruits, fresh and inviting, and of great perfection. Peaches, apricots, plums, figs, etc., are shown that caused exclamations of delight from all. These fruits are usually split open and dried in the sun on boards, the drying taking five or six days.
